

Wired Ltd was created in 2000 to provide high quality digital video services for the charity and public sectors, using the latest technology to keep costs to a minimum.

Since then, attracted by our competitive prices and consistently high production values, our client base has grown to include broadcasters, and businesses as well as several major UK charities.

Wired remains dedicated to providing affordable, original, creative video for all its clients.

### How we work

Wired has embraced new technology and working methods with a minimum of full time staff and small friendly premises which act as a hub for a pool of talented freelance workers who are recruited to each project based on skills and experience that precisely matches the client's requirements.

### Client List

Wired delivers high quality video production services including training, educational and promotional films and adverts for the private, public and not-for profit sectors.

Wired has covered live events like the *Refugee World Cup* in Newcastle, the *World Gurning Contest* in Cumbria and has produced DVDs, webclips, adverts, music videos, independent documentaries, viral videos and TV comedy.
